DETAILED ACTION

Acknowledgements

1. Applicants' response filed August 1, 2005 is acknowledged. Accordingly, claims 1-79 remain pending.
2. This Office Action, the "First Non Final Office Action" is given Paper No. 20051029.
3. All references in this Office Action to the capitalized versions of "Applicants" refers specifically the Applicants of record. References to lower case versions of "applicant" or "applicants" refers to any or all patent "applicants." Unless expressly noted otherwise, references to "Examiner" in this Office Action refers to the Examiner of record while reference to or use of the lower case version of "examiner" or "examiners" refers to examiner(s) generally.
4. This Office Action is written in OACS. Because of this, the Examiner is unable to control formatting, paragraph numbering, font, spelling, line spacing, and/or other word processing issues. The Examiner sincerely apologies for these errors.

Restriction

5. Applicants response filed August 1, 2005 elected Group I with traverse. Applicants argue that for independent claims 1 and 37, "while different, cannot be objectively be viewed as being completely unrelated" The Examiner has reviewed the claims again and because of Applicants' arguments, the Examiner finds that the inventions found in Group I and Group II (as recited in the restriction mailed July 1, 2005) are not patentably distinct. Because the inventions are not patentably distinct, a restriction is improper at this time. Therefore the restriction as set forth in the office action mailed July 1, 2005 is hereby withdrawn.

Claim Rejections - 35 USC §112 2nd Paragraph

6. The following is a quotation of the 2nd paragraph of 35 U.S.C. §112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-79 are rejected under 35 U.S.C. §112, 2nd paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. In view of the nature and scope of Applicants' invention, Applicants present an unreasonable number of claims which are repetitious and/or multiplied, the result of which confuses rather than clarifies the claimed subject matter. Therefore, in accordance with MPEP §2173.05(n), claims 1-79 are rejected under 35 U.S.C. §112, 2nd paragraph based on undue multiplicity.

9. The Examiner respectfully requests Applicants choose approximately 20 claims for examination.
